JEL Classification System / EconLit Subject Descriptors The JEL classification system was developed for use in the Journal of Economic Literature (JEL), and is a standard method of classifying scholarly literature in the field of economics.The system is used to classify articles, dissertations, books, book reviews, and working papers in EconLit, and in many other applications.

American Economic Association: JEL Codes

US tax-exempt investors (such as pension plans and endowments) invest primarily in offshore hedge funds to preserve their tax exempt status and avoid unrelated business taxable income. The investment manager, usually based in a major financial center, pays tax on its management fees per the tax laws of the state and country where it is located. [155]

The amount of capital you need depends on if you want to make day trading your full-time income or just a side hustle to make a couple extra dollars here and there. As you probably know, I started a small account with just \$500 and turned it into over a million in just two short years. That’s an extreme example and most traders, even experienced ones, would have a hard time replicating that ...
