China - China - Economic policy and developments: Ming China's northward orientation in foreign relations was accompanied by a flow of Chinese migrants from the crowded south back into the vast North China Plain and by a concomitant shift in emphasis from an urban and commercial way of life back to a rural and agrarian pattern. Thus, demographic and economic trends that had characterized ...

### China - Economic policy and developments | Britannica

Introduction Over the past decade, China's inland provinces have begun to narrow the gaps in output, incomes and productivity with their more dynamic coastal peers, but with economic growth slowing across China's provincial economies, this period of convergence has come to a close. In this paper, we examine regional patterns of economic growth across China's provinces, comparing changes in industrial structure, productivity growth and demographics.

### ANALYSIS China's Provincial Economies: Growing Together or ...

China's unequal transportation system—combined with important differences in the availability of natural and human resources and in industrial infrastructure—has produced significant variations in the regional economies of China.. Economic development has generally been more rapid in coastal provinces than in the interior and there are large disparities in per capita income between regions.

China - China - Economic development: In the 1640s and '50s the Manchu abolished all late Ming surtaxes and granted tax exemptions to areas ravaged by war. Tax remissions were limited, however, by the urgent need for revenues to carry on the conquest of China. It was not until the 1680s, after the consolidation of military victory, that the Qing began to permit tax remissions on a large scale.

Yángpǔ Economic Development Zone is an area of the Yangpu Peninsula, Hainan province, China. This zone, covering 31 km<sup>2</sup>, contains a port, oil refinery, petroleum commercial reserve base, power station, and the town of Yangpu. The area, Hainan's largest economic zone, is located on the northwestern coast of the island, about 140 km west of Haikou, the provincial capital. It is the first development zone approved for lease to foreign investors by the Chinese government.
